Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users. \wp

The Phases High-level steps your user needs to accomplish from start to finish	Understanding the dataset	Explore the Dataset	Creating Data visualization chart	Presenting the Dashboard
2 Steps Detailed actions your user has to perform	Download Dataset from Kaggle Upload Dataset to IBM Cognos Analytics Preparation of data	Data Establish cleaning reationships	Creating Comparing charts in IBM different cognos analytics charts	Creating Dashboard Presenting as story
3 Feelings What your user might be thinking and feeling at the moment	Learning new things	exploring new idea	Easy to understand for everyone	Satisfying
	lot of stuff to do	more time takes	selection of charts	Using the proper data
